Trying to figure that out. I've asked Liz initially if we can make it live and then from there we'll figure it out with Melissa. Thanks for all your help, Tim.

**Subject:** Draft website for Gold King Mine

Hi everyone, I've created a draft site for the Gold King Mine. To view it,

•□□□□□□□ log into the Web Content Management System at  
<https://wcms.epa.gov/user> with your LAN ID and password.

○ If you can't log in, send an email to Web CMS Support with your LAN ID; they usually take care of the odd log-in problem within a few minutes.

•□□□□□□□ Then go to <https://wcms.epa.gov/goldkingmine>

The URL for this site when published will be [www.epa.gov/goldkingmine](http://www.epa.gov/goldkingmine). There should be no reason to type in "www2" as part of the URL; "www" should be sufficient.

## Deliberative Process/Ex. 5

Notes on various pages:

- **Home page** –
  - not sure if you want the claims form to be this prominent. If not, there are other pages that link to it. Claims form PDF is copied from the OSC site.
  - I have included placeholder for a link to a page that explains what the data indicate
  - We can also easily add an FAQs page and a link on the home page to the FAQs
- **Contact Us** – emails sent using the form will go to [r8eisc@epa.gov](mailto:r8eisc@epa.gov) unless that feature is changed.
- **Who's responding/EPA role page** – all content of this page comes from the R8 updates, but I've organized it, added links, taken out words like "yesterday" and "tomorrow" and added a definition of flocculant agents. This page will have to be kept up-to-date daily.
- **Updates page** – new updates can easily be added
- **View raw data page** – the three PDFs from the OSC site are now copied on this site.

Let me know if you have questions. I'll be available tomorrow at 202-306-7367.
